Overview

Working on or around portable ladders can be hazardous. Portable ladders are major sources of injuries and fatalities in the United States. According to the Bureau of Labor Statistics, falls from ladders accounted for 20% of all fall-related fatalities.

OSHA requires that a ladder or stairway be provided when there is a break in elevation of 19 inches or more and a ramp, runway, embankment, or personnel hoist is not available.

Goals

The objectives of the AutoEHS® Web-Based Training Program on Portable Ladders are to:

- Describe OSHA's standard for portable ladders
- Outline the rules that apply to ladders of specific types; and
- Explain the requirements and needs for training

Lesson Topics

Module 1 – Introduction

- Course Objectives
- WBT Library
- Glossary
- Learning Assessment & Final Exam
- Additional Information

Module 2 – General Requirements & Training

- Objectives
- Introduction
- Accessibility
- Housekeeping
- Training
- Summary

Materials

Computer (PC, laptop)
Internet Connection: High Speed

Requirements

You should print and maintain a copy of this course syllabus and overview on file at your facility. It is recommended that you provide a copy of this document in the event of a regulatory agency (e.g., OSHA) inspection.

Evaluation

Upon completion of the course of instruction, a comprehensive examination will be offered. In order to earn a Certificate of Completion, you must receive at least 80% on the exam. The exam is comprised of at least 10 questions, randomly selected from a database of questions and address each of the lesson topics covered in the course.

Lesson Topics – cont'd

Module 3 – Portable Ladders

- Objectives
- General Requirements for Portable Ladders
- Step Ladders
- Non-Self-Supporting Ladders
- Portable Ladders
- Defective Ladders
- Summary

Conclusion

- Certification Test Code
- Final Exam Prep
